

## Week 3-4: Meeting #8 (Out of Class: At Andrew's House)

April 20, 2014

Group #5

- All group members present
- Meeting started at 2pm
- Ethan created group meeting agenda to organize time and keep group members on task
- Each group member talked about findings and explained plots
- Heather took notes and worked on beamer presentation
- Andrew took notes and created outline to use when stitching together section summaries
  - Andrew: Transportation plot (bar chart with error bars for commute time)
  - Heather: Plot of energy use type by state (heat maps of USA)
  - Ethan: Plot of veteran disability proportion by state (heat map of USA)
  - Nandhita: Bar charts of population
    - \* Problems with plots:
    - \* Should be using proportions not population
    - \* If use population size confounded with state size
    - \* Colors of plots make it difficult to tell immigrant groups apart
    - \* Artificial income "levels"
  - **DUE DATES:**
    - \* Nandhita and Ethan: new plots due by 7:30 pm Sunday for Heather and Andrew to incorporate in presentation and paper
    - \* Heather: presentation due by 6:00am Monday so that Ethan can turn in to Charlotte and Alix
    - \* Andrew: paper due by 6:00 am Monday so that Ethan can turn in to Charlotte and Alix
