

## Week 2: Meeting #3 (In Class)

April 11, 2014

Group #4

- Today we had a short meeting to discuss division of work.
- There was some concern by group members that everyone working on the same project at once might not be productive.
- Nandhita suggested that we each have a question of interest as a way to equitably divide the work.

Therefore, question topics were assigned to each group member:

- Bernath: Communiting/Transportation/Urban sprawl
  - Kitada: Internet Access
  - Edwards: Veteran benefits
  - Narendra Babu: Immigration
- Andrew suggested creating a list of *common* tasks to use with all of the questions of interest.

### Proposed Assignment

- Group members will download and cut data, selecting desired columns for their assigned topic.
- Group members will try to start summarizing data.
