Week 3: Meeting #6 (In Class)

April 18, 2014 Group #5

- Nandhita absent (no email explination)

- Heather presented map examples of plots made.

  – Charlotte gave Heather advice regarding how to improve and edit plots
  – Remove background and grids
  – Remove title from key
  – Add main title
  – Use grid arrange

- Heather and Ethan made plots with mean point estimates and standard errors.

  – Standard error bars included negative numbers, which is suggests that the data is skewed
  – Use median metric for center and IQR to illustrate spread instead (suggested by Charlotte)

- Group concerned about Nandhita's contribution

  – Not pushing to git repo
  – Not responding to google groups messages
  – Spoke to Charlotte and Alix about concerns
